

KEEP ON TRUCKING Co., Inc.

July 8, 1994

Ms. Yukari Tagawa
Director of International Sales
Omstar EnviroTech, Inc.
126 Marine Avenue
Wilmington, CA 90744

Dear Ms. Tagawa:

This letter concerns your fuel additive, Omstar D-1280X, that we have been using in our everyday fleet operations.

After performing controlled tests on 6 trucks, we were pleased that the smoke opacity on each of the trucks had reductions of an average of 57%.

We also conducted tests on fuel economy and saw a steady increase, an average of 6%. This is a major savings for our company with 62 trucks running, 300 miles a day in one years time.

We are very pleased with the performance of Omstar D-1280X. Please feel free to use my name to any of your prospective clients.

Sincerely,

Charles R. Woodry
